SUMMARY

Results-driven Software Engineer with solid experience since 2022 developing scalable applications using C# and ASP.NET Core. Founder of oqaq.dev, a cloud-based deployment and real-time logging platform built for developers. Proficient in backend architecture, REST API design, Linux system administration, and Docker containerization. Passionate about designing robust architectures from scratch and shipping reliable products to production.

WORK EXPERIENCE

Founder & Lead Software Engineer | oqaq.dev July 2026 – Present

- Architected and developed a cloud platform enabling developers to streamline app deployments, custom domain routing, and real-time log monitoring.
- Implemented containerized micro-workflows using Docker and Linux infrastructure for optimal reliability and security.

Freelance Full-Stack Developer | Upwork October 2025 – April 2026

- Delivered web applications and custom API solutions for international and local clients across diverse industries.
- Designed optimized database schemas, engineered clean REST APIs, and integrated responsive front-end interfaces.

Junior Database Administrator | Sinteks MMC October 2023 – January 2024

- Optimized poorly performing SQL queries and indexes, decreasing overall query execution times by 10%.
- Configured role-based access controls (RBAC) to maintain strict database security compliance.

Full Stack Instructor & Mentor | Mente Academy February 2023 – October 2023

- Taught comprehensive Full Stack development modules covering front-end, backend architecture, relational databases, and REST APIs.
- Created practical coding challenges and hands-on labs, strengthening students' problem-solving and algorithmic thinking abilities.

Junior Full-Stack Developer | OnlineShopping Azerbaijan October 2022 – January 2023

- Led front-end development initiatives, improving web page load speeds by 25% for high-performance user experiences.
- Revamped checkout and payment funnels, reducing drop-off rates and increasing checkout completion by 20%.

EDUCATION & CERTIFICATIONS

Azerbaijan Technical University September 2019 – July 2023
Bachelor of Science in Automation Engineering

Secondary School No. 114 named after Abil Safarov September 2008 – June 2019
High School Diploma

Div Academy April 2026 – Present
Full Stack Developer

Code Academy February 2022 – July 2022
Software Engineer Certificate

TECHNICAL SKILLS & ADDITIONAL INFORMATION

- Technical Skills:** C#, ASP.NET Core, Entity Framework Core, RESTful APIs, SQL (MS SQL Server, PostgreSQL), JavaScript, Node.js, React.js, Next.js, TypeScript, Bootstrap, Tailwind CSS, HTML5/CSS3, Docker, Linux, Git, GitHub, Cloud Deployment.
- Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Mentorship, Project Management.
- Languages:** Azerbaijani (Native), Turkish (Fluent), English (Intermediate – B1).
